

### 5.3 Embedded Questions

Embedded questions can also be questions that are **inside other questions**.

Here are some questions:

**Where is Maria?**  
**What is Bill doing?**  
**Why is Sheila late?**  
**When is the meeting?**

When these questions are inside another question, you change them:

Do you know **where Maria is**?  
Do you know **what Bill is doing**?  
Do you know **why Sheila is late**?  
Do you know **when the meeting is**?

Read the questions below, and rewrite them as embedded questions.

1. Where is David? Do you know \_\_\_\_\_?
2. Who is that? Do you know \_\_\_\_\_?
3. When does the movie start? Do you know \_\_\_\_\_?
4. What does this word mean? Do you know \_\_\_\_\_?
